

**DAY 1, SATURDAY 8TH OCTOBER, 2022**

Topic	Lessons
8:30 start	
Introduction	<ol style="list-style-type: none"> <li>1.Intro and welcome</li> <li>2.Why the need for new guidelines?</li> <li>3.Case studies</li> <li>4.Setting the context for mass casualty burns incidents</li> <li>5.Empirical evidence from case studies</li> </ol>
Phase 1: On Scene	<p>New guidelines on the management of mass burns on scene.</p> <ol style="list-style-type: none"> <li>1.On-scene challenges – lessons from the case studies</li> <li>2.Applying the new triage process for mass casualty burns incidents</li> <li>3.Tips and tricks for managing on scene care for mass casualty burns</li> <li>4.Taking control of the scene</li> <li>5.On scene coordination</li> </ol>
Phase 1: Simulation	<p>Participants practice through simulation the initial scene of a mass casualty burns event in a resource-poor environment.</p> <ul style="list-style-type: none"> <li>• Guided by experienced faculty participants, the simulation will apply the four S's (systems, space, staff allocation, and stuff) to this extreme event to test out key lessons from previous mass casualty burns incidents.</li> </ul>
Phase 2: First Receiving Hospital	<ol style="list-style-type: none"> <li>1.First receiving hospital challenges – lessons from the case studies</li> <li>2.Key consideration management of large numbers of burnt patients in resource-limited environments. The key differences with a mass burns event.</li> </ol> <p>Includes:</p> <ol style="list-style-type: none"> <li>a) Burns management (dressing)</li> <li>b) Fluid management challenges</li> <li>c) Management of expectant</li> <li>d) Clinical management differences?</li> <li>e) What are the controversies?</li> <li>f) Pain management?</li> </ol> <p>Masterclass: Clinical Management considerations and key interventions at a district / rural hospital level</p>
Phase 2: Simulation	<p>Participants will practice the initial set-up of a facility in a resource-constrained environment and the retrieval of patients to alternative hospitals.</p>
16:30 close	

**\*LUNCH BREAK AND MEAL INCLUDED**

**DAY 2, SUNDAY 9TH OCTOBER 2022**

Topic	Lessons
9:00 start	
Phase 3: Transition to Tertiary Care	Master Class – surgery & rehab considerations
CBRN	The challenge of different context
Incident Response	Incident management for health professionals. How to prepare for unknown patient numbers and complexity.  Team considerations - Burn Rapid Response Teams, the WHO guideline recommendations.
Incident Response: Final Scenario	Participants have an opportunity to test out the coordination challenges of a burns mass casualty event.
16:30 close	

**\*LUNCH BREAK AND MEAL INCLUDED**

**CHRISTIE SPACES, 320 ADELAIDE STREET (CORNER OF WHARF STREET), BRISBANE, AUSTRALIA**
